Assembly Instructions

Langham boot/log Store

Before you commence the assembly process we recommend that you read these instructions thoroughly beforehand to familiarise yourself with the assembly process and to also check that you have the correct components. If for any reason you need assistance, you can find our contact details on the final page of these instructions.

We highly recommend that any assembly is carried out on a flat, level surface if possible and that you use another person to assist you if necessary.

Step 1

Stand the left side end panel upright on a flat surface.

Step 2

Place the 2 spacer blocks as shown, so that the back panel can be mated to the end panel at 90°. Please ensure that the slats in the back panel aren't upside down.

Step 3

Secure the back panel to the side panel by using 2 shorter green screws.

Step 4

Now repeat the same process for the other end panel.

Step 5

Insert one of the base supports into the gap in the battens at the bottom of the front posts, ensuring that the supporting batten on the base support is in the lowermost position.

Step 6

Now secure both ends of the base support using 2 longer green screws as shown.

Step 7

Now insert the rear base support, again ensuring that the batten running along its length is correctly oriented.

Step 8

Now you can lower the lattice into the base of store in preparation for attaching the roof.

Step 9

Place the roof on the store and adjust its positioning so that the roof battens are flush with the front posts.

Step 10

Secure the roof to the front posts using 2 of the shorter green screws on both sides.

Step 11

Now secure the rear of the roof, this time using a single short green screw in each side.

Step 12

Line up the roof support so that is centred across the store and butted up to the underside of the roof. Secure in place with 2 of the remaining short green screws in each end.
